1 Conversation

Listen and practice reading the conversation in pairs.

Yasmin is in Jeddah, visiting relatives. She and her cousin, Amal, are invited to a wedding reception at the end of the week.

Yasmin: Amal, look at that beautiful, silk gown in the window!
Amal: I agree. It’s very elegant. Would you like to go in and have a look?
Yasmin: Can we? I’d love to try it on. We don’t have much time; shops will close in less than an hour, so let’s hurry!
Assistant: Good morning ladies. How can I help you?
Amal: We’d like to see that gown, please.
Assistant: Is it for you?
Yasmin: It’s for me, actually. But I need a larger size, don’t I?
Assistant: I’m not sure you do. I think you should try a smaller one.
Yasmin: Isn’t this small enough?
Assistant: I’m afraid not. It’s an XL. Small is the right size for you. Would you like to try it on?
Yasmin: Yes, please.

Yasmin: What do you think? It’s the right size isn’t it?
Amal: Yes, it’s a perfect fit. It looks great on you. You might need to have the hem taken up a little.
Assistant: We’d be happy to do that for you.
Yasmin: Right! We’ll take it! Do you accept this type of credit card?
Assistant: Actually, we’d prefer cash.
Yasmin: Oh, I’m sorry. In that case, we’ll have to go to the bank and get some cash. Could you tell us how to get to the nearest bank?
Assistant: Yes, of course. Walk out the door and turn right. You’ll see some elevators on your right. Go down to the ground floor. The bank is between the elevators and a large sports store. You can’t miss it.
(In the elevator...)

Amal: By the way, I noticed you were reading the book that we bought the other day. Are you enjoying it?
Yasmin: I can’t put it down. It has an incredible plot. It’s full of suspense and events are totally unpredictable. It’s not like many boring detective novels where you know what’s going to happen next without reading. It’s a good, well-written book. You should read it.

Size – Quantity

We don’t have much time, shops will close in less than an hour, so let’s hurry!

Teenage Stress

Definition

Stress—the mental and physical strain or the nonspecific response of the body to any demand made upon it. Stress is a chemical reaction that takes place inside the body when there is a basic need to adapt to or resist changing internal or external influences. It is a response meant to return the body and mind to a state of equilibrium and balance.

The Causes of Stress

Although adolescence is often viewed by parents as a carefree period of life, some studies show that teenagers experience the most stress of all people. They can experience stress related to money, family problems, self-esteem, acceptance by their peers, getting accepted into college, choosing a career, and pressure to do well in school, sports, or clubs.

According to experts, one of the main reasons for stress is that childhood has gotten shorter, and the perception of children has changed. Since TV is available to all audiences, children can get messages that were probably meant for adults, and the dividing line between childhood and adulthood is less and less clear. Children do not play as many of their own games as they used to, and most of their games and sports nowadays are those preferred by adults. Youngsters wear similar clothing to that of adults, and they use adult language that was once never to be heard from a child. Young people these days are under tremendous pressure to achieve, to please, and to succeed. They are expected to adjust to social changes that past generations have never had to deal with. The demands made on preteens and teens by modern life have definitely increased the level of stress.

Tips for Dealing with Stress

All humans experience stress. It is a necessary part of life. The response to stress is what often needs to be controlled. A person’s feelings, attitude, and outlook on life affect his or her ability to deal with stress.

- You should avoid unnecessary worry. Thinking about a problem in order to arrive at a solution can be positive, but constant worry is not constructive, and it accomplishes nothing. It usually just makes situations more stressful.
Read and listen to the Qur’an. It will help refresh your heart and mind. Remember that prayer and patience can combat stress and anxiety.

Be thankful for what you have and start each day on a positive note. Remember that each day is a gift. Thank Almighty for the gift of life and greet the day with optimism and gratitude. Remember that you are not alone.

Become better organized. Plan activities a step at a time so that parts are accomplished. This gives you more self-esteem and more reasonable deadlines.

You should be aware of the symptoms of stress. Some symptoms are: moodiness; insomnia or other sleeping disorders; lowered body resistance to colds, flu, or other diseases; preoccupation with negative/angry thoughts or feelings; unusual behavior patterns; loss of appetite, or eating disorders such as anorexia or bulimia.

When you know you have a problem with stress, try to solve it one step at a time. Part of the problem could be trying to do too much at once. You should take it in easy stages.

**Conclusion**

Stress doesn't need to be negative. Some doctors say that you should laugh and smile more frequently to help deal with stress. When you laugh and smile, your body relaxes, and the result is an overall positive reaction. Don't forget that it is the effort that counts more than the result.

Customer: No, it's not that. It's the fabric. It's really flimsy, and...
Salesperson: Well, lightweight fabrics are the latest trend.
Customer: You don't seem to understand.
Salesperson: Of course, ma'am, I'll try to help. Can you give me the jeans?

Before Reading
1. Have you ever heard of Murphy's Law? Find out if any of your classmates know about it.
2. Read the article and underline all the sentences that talk about something that went wrong.
3. Write a sentence to state what the writer is trying to say.

MURPHY'S LAW

You invite your friends over to watch a final football match on TV. There are plenty of juices in the refrigerator, you have bowls filled with your favorite snacks on the table, and you are all set to watch the big match. You turn on the TV set, and all you get are fuzzy images on the screen. Could this be Murphy's Law at work? Murphy's Law states: If anything can go wrong, it might go wrong!

Similar situations occur all the time. When you're in a hurry to open the door and you try several keys on the key ring, the last remaining key is usually the one that works. When you're late meeting your friends and they're all waiting for you at the mall, all the traffic lights are red. When you get in a line at the supermarket, you find you've chosen the slowest one, and it just doesn't move. Is this bad luck or coincidence? According to British physicist Robert Matthews, it's neither one nor the other. He explains that our selective memories tend to remember the bad episodes more readily than the things that usually work out. Also, the law of probability is more against us than in our favor in many situations. For example, in the supermarket with five cashiers, the chances of getting the fastest lane are 20 percent, and 80 percent for a slower lane.

Matthews became a popular scientist when he proved that a piece of toast doesn't necessarily fall on the floor on the buttered side. BBC Television gathered 300 people to throw pieces of buttered toast up in the air and observe on which side they fell. Half fell on the buttered side, and half didn't.

Just remember that you cannot blame Murphy's Law for everything that goes wrong. If the hot water runs out while you're taking a shower, it's probably because the hot water heater needs to be fixed. If you miss the bus and are late getting to school, it's probably because you didn't wake up early enough. And if you lose all your files on the computer, let's be honest— it's your fault for not having a backup of your files.
Captain Edward A. Murphy

Captain Edward A. Murphy, Jr., was an engineer at Edwards Air Force Base in the United States. In 1949, he was working on a machine to measure the heartbeat and breathing of pilots. But something was malfunctioning in the equipment as the result of human error. Murphy blamed the lab technician and said, "If there is any way to do it wrong, he will." One person's failure can bring a whole project crashing down. And Murphy's view was that some failure or something negative will typically happen. Murphy's phrase became popular in all areas to explain the failures of everyday things.

After Reading

Answer the questions about the reading.

1. What does the example of the final football match illustrate?
2. What does Murphy's Law state?
3. According to Robert Matthews, how does the law of probability work against us in the supermarket line?
4. Why did Matthews do the buttered bread experiment? What did it show?

Discussion

1. Give examples of Murphy's Law using your own experience.
2. Do you believe in Murphy's Law? Why, or why not?
10 Writing

A. 1. Have you ever bought a product that turned out to be faulty or a lot less than you expected? Did you take it back? Why? Why not?

2. Some people complain in writing to make sure that their complaints go on record. Read the complaint letter on the next page and answer the questions.
   - What was the problem with the item that the writer had bought?
   - What was the first thing he did? What was he advised to do?
   - What did he expect the store to do? Why?
   - How do you think he feels about the whole incident? How do you know?

3. Now read the letter again. Circle the paragraph(s) that do the following:

<table>
<thead>
<tr>
<th>Paragraph or paragraphs</th>
</tr>
</thead>
<tbody>
<tr>
<td>Set(s) the scene:</td>
</tr>
<tr>
<td>Express(es) personal feeling/opinion:</td>
</tr>
<tr>
<td>Give(s) an account of the events:</td>
</tr>
<tr>
<td>Provide(s) a conclusion:</td>
</tr>
</tbody>
</table>

Please note that some of the paragraphs can serve more than one purpose.

B. 1. Think about a faulty product. It can be a clothing item, an electronic gadget, an appliance, etc.

2. Think about what can go wrong with it. Make notes in the chart.

3. Use your notes to write a letter of complaint to the Customer Service Department of the company or the store where you bought it.

The item/product you are complaining about:

<table>

<th>What the instructions/salesperson promise</th>
<th>What is happening instead</th>
<th>What you would ask/expect the company that sold you the item to do</th>
</tr>
</thead>

Dear Sir,

1. I purchased a set of earphones at your store three days ago. According to your promotional material, any item that is faulty and is returned within 24 hours, is fully refunded and a discount voucher is offered for future purchases, as a courtesy to the customer.

2. I attempted to use my earphones the day I purchased them and found out that one of the cables had not been connected. I therefore, called your Customer Service Department and was advised to return the earphones as soon as possible.

3. I drove to your place of business immediately and tried to do as advised. Unfortunately, however, I was told by the assistant that the earphones could only be returned if the packaging was intact.

4. Allow me to wonder how one is supposed to find out if an item is faulty or not, if it is kept in its packaging. And if that is the case, it would seem fair to include it in your promotional material in large block letters, instead of conveying the wrong message and misleading people.

5. I regret to inform you that following this incident, I will refrain from using your retail outlet in future and will have to report you to Consumer Protection.

Yours sincerely,

A displeased former customer

New Orleans,
Louisiana USA

When Raj and Judy Fausset arrived home on the afternoon of September 23, 2003, they discovered to their amazement that a meteorite had crashed through their two-story house. Neighbors said that they had heard a terrific noise, and two people had actually seen the fireball when the meteor hit. The meteorite had penetrated through the Faussets’ roof and the house’s two floors, and it had ended up in the crawl space under the house, leaving debris and fragments along its path. A total mass of 42.5 pounds (19.3 kilograms) from the meteorite was recovered from the Fausset house. We tend to think of remote controls as ‘new’ devices. However, what we now take for granted at home or at work has been developed over a very long time.

One of the earliest examples of remote control was developed in 1898 by Nikola Tesla, who demonstrated a radio-controlled boat to the public during an electrical exhibition at Madison Square Garden. In 1903, Leonardo Torres Quevedo presented the Telekino at the Paris Academy of Science. It consisted of a robot that executed commands transmitted by electromagnetic waves and was a pioneer in the field of remote control. The first remote-controlled model airplane flew in 1932 and by the late 1930s, several radio manufacturers offered remote controls for some of their more exclusive models.

The first television remote control was developed in 1950. It was called “Lazy Bones”, and was connected to the television set by a wire. A wireless and then an ultrasound remote control were developed in the mid-50s but neither was reliable.

More sophisticated television remote controls were introduced in the late 70s, but they had a limited number of functions, sometimes as few as three: next channel, previous channel, and volume/off. Remote controls, with a wider range of functions, were finally launched in the 80s and became an immediate success. For the first time, viewers no longer watched programs just because they did not want to get up to change the channel. They could also channel surf during commercials, or turn the sound off.

By the early 2000s, the number of remote controls increased along with the number of electronic devices. Consumers needed a remote for each device. This led to the development of universal remote controls that can be used with different devices. Imagine controlling everything around you with the touch of a button on one single remote control! Is it wonderful or scary?

11 Form, Meaning and Function

Independent Clauses with And, But, Or, So, and Yet

An independent clause expresses a complete thought and can stand alone as a sentence.

A meteorite crashed through their two-story house.

Two or more independent clauses can be combined with coordinating conjunction words, such as: and, but, or, so, and yet. When a sentence includes two independent clauses joined by a coordinating conjunction, use a comma before the coordinating conjunction.

Neighbors said they heard a terrific noise, yet no-one reported it to the police.
Mr. and Mrs. Fausset's house was destroyed, so they moved.

The Past with Dependent Time Clauses

We can talk about a past event using a time clause with when, as soon as, before, after, while, until, and since.

When they arrived home, they discovered to their amazement that a meteorite had crashed through the roof.

Expressing Enthusiasm with Intensifiers and Adjectives

<table>
<thead>
<tr>

</tr>
<tr>
<td>big</td>
<td>massive</td>
</tr>
<tr>
<td>very</td>
<td>absolutely</td>
</tr>
<tr>
<td>really</td>
<td>quite</td>
</tr>
</tbody>
</table>

Note: We can use really with both kinds of adjectives. It means a lot. But when we use quite before a gradable adjective it means a little. When we use quite before a non-gradable adjective, it means completely.

*UFO = Unidentified Flying Object

B. Write an account of an event you have witnessed. Use time clauses, conjunctions, adjectives and intensifiers. Then tell your story to the class.
Conditional Sentences with Present and Future Forms

Use conditional sentences with if to talk about real causes and results. In these cases you can also use when in place of if.

**Present Facts**
Use the simple present tense in both clauses.

- When a meteoroid enters the earth's atmosphere, chemical interactions and gasses cause it to heat up and form a fireball.

**Future Facts**
Use the simple present in the if-clause and the future with will in the result clause.

- If you don't leave now, you will be late.

**May/Might**
Use may/might in the result clause to suggest something is possible, but not certain.

- If you see a meteorite falling through the sky, it may be a stony meteorite or it might be an iron meteorite. The third type of meteorite is a stony-iron meteorite, but these are very rare.

---

**Express Necessity and Lack of Necessity:**

</tr>
<tr>

4. If we ____________ (get) this HD television, we ____________ (see) the game better.
5. When you ____________ (mix) flour and water, you ____________ (end up) with batter.

D. Read a college professor's notes on what to do if you find a meteorite. Write his advice in full sentences using modals to express necessity or lack of necessity.

What should you do if you find a meteorite?
- Photograph the rock.
- Describe the exact location.
- Measure the rock if possible.
- Report the find to the Meteoritical Institute.

Inventions and Discoveries That Changed History

We often wonder if things might or could have been different. Would the world be a better place? What are the advantages or disadvantages of different inventions?

**Electricity**
If electricity hadn't been discovered, people would probably still be using candles or gaslights. Thomas Edison developed the first incandescent electric light bulb in 1879.

**The Wheel**
If the Sumerians hadn't invented the wheel in 5,000 B.C.E., they couldn't have moved heavy loads. Six thousand years later, the Mayans and Incans in the Americas used the round shape in their architecture, but they had no wheels.

**Penicillin**
If Dr. Alexander Fleming hadn't discovered penicillin in 1928, millions of people would have died from infections. However, the widespread use of penicillin as an antibiotic did not begin until the 1940s, during World War II.

**Oil**
If people hadn't discovered a lot of sources of oil, cars that run on gasoline wouldn't have become so common. The first commercial oil well drilled in North America was in Oil Springs, Ontario, Canada in 1858.

**Computers**
If we didn't have computers, a lot of work would still be done with paper and pencil, and people in their homes wouldn't be able to be in contact with the entire world. The first PC was introduced by IBM in 1981.

**Airplanes**
If the Wright brothers hadn't invented the first successful airplane, people might still be traveling long distances on ships, and there wouldn't be as much contact among people on different continents. The Wright brothers first flew in an engine-propelled plane in 1903.
Life's Regrets
At one time or another, we all look back and wish we had done things differently in our lives. The following are some typical situations. Mark the ones you've said or done. Discuss with a partner.

2. ☐ I should have said what I thought about her hairstyle, but I didn't want to hurt her feelings.
3. ☐ I should have bought that thing last year, now prices have gone up.
4. ☐ If I had been more careful, I would have avoided the accident.
5. ☐ I should have told the security guard that I saw someone breaking the lock.
6. ☐ If I'd known the trip was going to take so long, I would have taken another route.
7. ☐ Other afterthoughts?

3 Grammar

Should Have + Past Participle

Use *should have* + past participle to talk about regrets. Use this form to talk about things you wish you had done or hadn’t done.

I *should have said* I was sorry. (...but I didn’t say I was sorry)
I *shouldn’t have done* that. (...but I did that)

Conditional Sentences: Hypothetical Situations in the Past

Use *if* + past perfect + *would have* + past participle to talk about things that didn’t happen in the past and had a result in the past or to talk about things you would have done differently.

If I *hadn’t found* my book, I *would have been* in trouble. (I found my book, so I wasn’t in trouble.)
If I *had studied* harder, I *would have passed* the exam. (I didn’t study hard, so I didn’t pass the exam.)

Use *if* + past perfect + *would* + *not* base verb/be + *-ing* to talk about things that didn’t happen in the past and have a result in the present.

If I *hadn’t learned* English, I *wouldn’t understand* you. (I learned English, so I understand you.)
If we *had won*, we *would be celebrating*. (We didn’t win, so we aren’t celebrating.)

*Note:* *I’d = I had or I would*
*If I’d (= I had) been* more careful, I’d (= I would) *have avoided* the accident.

If with Could and Might

Use *if* and *could/might* + past perfect to talk about possibilities and missed opportunities.

If I *had gotten* a job last summer, I *could have saved* more money.
If she *had left* work earlier, she *might have avoided* traffic.

E. Work with a partner. What would, could, or might you have said or done in the
   following situations? Compare your ideas with other pairs.

1. It was late at night when Ken remembered he hadn’t taken the garbage out. He was already in his
   pajamas, but he wasn’t going to get dressed again just for that. So he went outside quickly, threw the
   bags into the trash can, and rushed back to the house. When he got to the front door, he realized he
   had locked himself out. He was busy trying to break into the house when a police officer saw him.

2. You saw an old friend at the airport that you hadn’t seen in years. You went up to him or her, greeted the
   person, and started talking about old times. Suddenly you realized that you had made a mistake.

3. Salim borrowed his friend’s car and dented it. He returned it, but he didn’t say anything about it. The
   following day, when they went out, his friend noticed the dent and thought that someone in the parking
   lot had bumped into his car.

4. It was a special occasion, and you wanted to celebrate. You invited a friend to go out to a fancy
   restaurant. The meal was wonderful, and you enjoyed the evening. When the waiter brought the check,
   you realized you had forgotten your wallet at home.
4 Language in Context

The following talks about a message that was found in a bottle. Imagine you found the message. Discuss with a partner what you would have thought if you had found the bottle and what you would have done with the money.

In 1949, Jack Wurm, an unemployed man, was walking aimlessly on a California beach when he came across a bottle that had floated onto the beach. In it was a piece of paper with this message: “To avoid confusion, I leave my entire estate to the lucky person who finds this bottle and to my attorney, Barry Cohen, share and share alike. Daisy Alexander, June 20, 1937.” It was not a hoax. Mr. Wurm received over $6 million from Daisy Alexander’s estate.

Faisal: So do you have any regrets about things in your life?
Ibrahim: You mean, things I should or shouldn’t have done? Yeah. I guess there are a few. How about you?
Faisal: I wish I had done things differently. I missed some good opportunities because I was too immature. I should have listened to my parents. They wanted me to go to college, and I actually had the grades, but I wanted to go get a job and go out into the world.
Ibrahim: Well, you did very well for yourself. You have your own business, and you don’t have a boss breathing down your neck.
Faisal: But I have lots of responsibilities. I wish I’d taken a course in business management. Now I have to employ someone to do the work I could be doing.
Ibrahim: Well, it’s never too late. You can still go back to school. As for me, I got my master’s degree, and I had my mind set on a career. But then I got married and had children.
Faisal: So you had to choose between the job and family?
Ibrahim: No, I work hard and I am able to take care of my family.

**MARIO’S ADVICE COLUMN**

Dear Mario,
I am writing to tell you a story. It’s too late for you to tell me what to do now, but maybe you could tell me what I should have done. Your advice might be useful to others in similar situations.

My best friend borrowed some money from me when we were out shopping at the mall, two weeks ago. I was happy to let him have it, as I had saved my allowance over a few weeks and had more than I needed. He wanted to buy a DVD. Then later I loaned him some more money because we decided to eat at a pizza restaurant. The total, including the DVD, came to $25. I don’t mind helping out a friend, if I can, so I didn’t think much of it.

Last week, we were at the mall and I needed to buy some shoes. They were rather expensive and I asked him if he could give me some of the money I had loaned him. He gave me a very funny look, threw a twenty-dollar bill at me, and walked away.

I was really upset. So, I decided to call him when I got back. He told me that he never wanted to have anything to do with me again. He said I had embarrassed him at the shop and that I shouldn’t have asked him for the money in public. He thought I had done it on purpose because I didn’t trust him.

I am really devastated. I’ve lost my best friend over $25. What do you think I should have done? Should I have just not said anything? Would that have been the right thing to do?

—A Confused Friend
**ADVICE COLUMN**

Dear Mario,

I'm a limo driver, and people leave all kinds of things in my limousine—scarves, packages, and even shoes. Last Saturday night I picked up this wealthy man at his hotel and drove him to a prestigious charity awards ceremony. The man must have been a millionaire, judging by the way he was dressed. The next day, when I was cleaning the inside of the car, I noticed something shining.

The man’s gold and diamond pocket watch must have fallen out of his pocket, and it slipped behind the seat.

So I called the hotel where the man was staying, explained what had happened, and arranged to return the watch. The man was extremely grateful. He told me that it was a valuable family heirloom, given to him by his grandfather, and he went on to praise my honesty. Then he opened his wallet, took out a ten-dollar bill, and gave it to me. I refused, but he insisted. Ten bucks! Can you believe it?

I should have kept the watch. Since then I've been thinking of what I could have done with the money. I could have bought my own limousine or started my own business.

Did I do the right thing?

10 Writing

A. 1. Do you like sharing things with your friends? Why? Why not?
   2. Read the advice column and answer the questions.
      • Why was Sabah sad?
      • What happened with her friend? Why?
      • What is the column writer’s advice?
   3. Do you agree with the column writer? Why? Why not?
   4. What would you have done if your friend had wanted to borrow something new that belonged to you?

---

Ask Mariam

Friendship is more important

Dear Sabah,

I am sorry you feel so sad about falling out with your best friend. I understand that she wanted to borrow your new bag before you had the chance to use it yourself. But as you say, she was invited to a wedding and she could not buy a new bag.

I understand that it is difficult, maybe even unfair, to let someone else use something that you have just bought or been given. But surely, friendship is more important, even if it requires some sacrifices. So I am afraid I will agree with what you think, you should have let her borrow the bag. She should have been happy and grateful to you and you would still be on good terms with your friend.

You say you do not like sharing your things with people because they might damage them. You could have asked her to be careful with your bag. The point is, however, to put things into perspective. What is more valuable to you, your friend or your new bag?

I would call and say I am sorry. I am sure she will understand and if she has not already been to the wedding, offer her the bag. You will both be happier.

I hope it all works out.

—Mariam

Khaled: Yes, I totally agree with you. Telemarketers are a real nuisance.
Faisal: Yesterday a man called me up. He said he was from the Dollar Bank, and he asked if he could talk to me for a minute.
Khaled: What did he want?
Faisal: He said that someone had given them my name and that he was calling to offer their services.
Khaled: What services?
Faisal: He tried to persuade me to open an account with them. So I told him I already had an account elsewhere and that I wasn't interested. But he insisted and was very pushy. In the end, I lost my patience and hung up.
Khaled: Well, I got a call from a man who said he was from a travel agency. This man said I had won a free trip to the Bahamas and that he was calling me to give me the good news.
Faisal: Had you entered a contest or anything like that?
Khaled: No. It turned out that everything was for free, but I'd first have to pay a huge amount of money to become a member of the Jet Set Club. Big hoax!
Faisal: I hate that!

   - Why did she call her brother?
   - What was he doing when she called? Was he pleased?
   - What was the problem? What had she already done about it?
   - How did he react to the news?

She called her brother at work. She knew he didn’t like to be interrupted but she didn’t know what else to do. Their mother’s condition was deteriorating.

He sounded annoyed when he answered the phone; he was probably in the middle of a meeting. She apologized and stressed that she wouldn’t have called if she hadn’t thought it was urgent. His tone changed instantly. He asked her what was happening and if everything was all right. He wanted to know if the doctor had been notified and when he would be coming to see their mother. He sounded very stressed and worried.

She tried to reassure him by telling him that the nurse was at home looking after their mother and their aunt and that everything was under control. He asked her to wait for a minute while he took care of something. She heard him speak to some people, probably clients. She heard the words “family emergency” and “health” and realized he was excusing himself. Then there was some noise of chairs being pulled, people moving, and a door opening and then closing. He came back and explained that he had had to interrupt the meeting and reschedule it for another day. She thanked him for having done that and before she had a chance to ask, he interrupted and asked her to hang up so he could be on his way home as soon as possible.

2 Reading

Before Reading

1. Read the title and write as many words as you can think of about it.
2. Read the text and underline the main event in each paragraph.

THE WAR OF THE WORLDS

1. On October 30, 1938, CBS Radio interrupted a live radio program to deliver an important announcement. It said that astronomers had detected blue flames shooting up from the surface of Mars. The broadcast returned to its program, but it was soon interrupted again. This time the news said that a strange meteor had fallen on a farm near Grover's Mill in New Jersey, and then CBS Radio switched over to continuous live coverage of the eerie scene around the meteor crash.

2. As the event unfolded, the terrified audience discovered that the meteor was actually some kind of spaceship. The reporter on the scene described the emergence of an alien from the spacecraft. “Goodness, something’s wriggling out of the shadow like a gray snake,” he said, in an appropriately dramatic tone of voice. “Now it’s another one, and another. They look like tentacles to me. There, I can see the thing’s body. It’s as large as a bear, and it glistens like wet leather. But that face. It... it’s indescribable. I can hardly force myself to keep looking at it. The eyes are black and gleam like a serpent. The mouth is V-shaped with saliva dripping from its rimless lips that seem to quiver and pulsate... The thing is rising up. The crowd falls back. They’ve seen enough. This is the most extraordinary experience. I can’t find words. I’m pulling this microphone with me as I talk. I’ll have to stop the description until I’ve taken a new position. Hold on, will you please, I’ll be back in a minute.”

3. The alien Martian crawled back into the crater, but re-emerged soon afterwards in a gigantic three-legged death machine, and quickly killed the 7,000 armed soldiers surrounding the crater. Then it proceeded across the landscape, joined by other Martians, blasting people and objects with heat rays, while releasing a poisonous black gas against which gas masks proved useless.

4. Listeners all over the United States began to panic. People filled the roads, hid in cellars, loaded guns, and even wrapped their heads in wet towels as protection from the Martians' poisonous gas. People desperately wanted to defend themselves against aliens. Although the radio broadcast had warned listeners four times that this was a dramatized version of H.G. Wells's story, The War of the Worlds, performed by Orson Welles and the Mercury Theater, people simply ignored those announcements. However, by the time the night was over, most people had learned that they were actually listening to a radio play. The fact is that the broadcast had reached approximately six million people and had produced a huge national scare at a time of the growing tension and anxiety leading up to World War II.

Could You Help Me Find the Reason?

Could you help me see the reason
Why I work so long and hard?
Could you tell me why I do it?
Why I push myself some more?
Could you help me find the words?
Could you tell me what to think?
Could you help me see the reason
Why I still can’t get an A?

If I had not tried,
I would have shown
That I didn’t care.
They would have seen
My wish was true,
My will was real,
If only I
Had tried harder.

I should have done much, much better.
Should have corrected on the spot.
I should have asked someone to help me.
Should not have tried it all alone.
They might have noticed all my trials.
They might have listened to my plea.
Considered all that I’d forsaken
And handed that A right over to me.

READING

Are you thinking of buying a used car? It isn’t as easy as you might think. There are a few things you should know about and do before you spend any money. When you get to the car dealership, check the label on the car’s window and read the price of the car. Check to see if they give you any other information about the car. Was it in an accident? Does it need to be repaired? If something goes wrong during the first six months, will the dealership fix it for you? These are very important questions to consider.

You need to look for other things, too. Did the previous owner take care of the car? Check to see how much oil is in the car right now. And most important, take the car for a ride. How does it drive on the city streets? How does it drive on the highway?

If you can, have a mechanic look at the car before you buy it. He will be able to tell you if there are any problems that need to be fixed before you buy it.

The last thing you need to do is read the contract very carefully before you sign it. If you aren’t sure about something it says, ask the salesperson what it means. Make sure you get everything they promise to give you in writing. After you do all these things, you will be ready to buy the car. Oh yes, one last thing, remember to keep copies of everything you sign.

Answer the questions.

1. What do you need to do before you buy a car?

2. What are two things you need to check?

3. What is the most important thing you need to do when shopping for a car?

4. Where do you need to test drive your car?

5. What should you have a mechanic do?

6. What do you need to keep?

**READING**

Read the story.

Patricia Polacco can certainly tell a very exciting story. I loved a book she wrote called *Meteor*! So when I saw that she was coming to our local library, I decided to meet her. At the library, she told us something about her life and then read us part of her book.

Patricia was born in Lansing, Michigan, and grew up in Oakland, California. When she was a little girl, she often stayed with her grandparents who lived in Union City, Michigan. One summer day, a meteorite fell from the sky, right into her grandparents’ backyard! Before that, her grandparents had lived a very quiet life on their farm. Now things were different. They had so much to do. People came to see the meteorite. The university came to study it and analyze it. Her grandparents had never talked to so many people in their lives! Everything changed.

As you can guess, no one in the town had ever seen a meteor before! They were confused and didn’t know what to do. Everyone had a different idea about what to do with it.

Patricia Polacco loves to tell the story about her meteorite and even today, she still carries a piece of the meteorite with her. When I met her, she let all of us touch it.

Answer the questions.

1. Before the meteorite, how had Patricia’s grandparents lived?

2. What had Patricia’s grandparents never done before?

3. What had the people in Union City, Michigan never seen before?

4. What does Patricia still carry with her?
2 I Wonder What Happened

 Strange things happen to people all the time. Here is a list of some strange things. Place a tick next to the ones you have seen or experienced.

1. meteorite
2. tornado
3. flood
4. snow in summer
5. strange objects in the night sky
6. Northern Lights in the sky
7. shooting star
8. UFOs
9. solar eclipse
10. sand storm

H Read what the person is saying to a friend on the phone. Write answers using can’t, must, or might in present or past form.

I can’t believe it. I keep on forgetting things all the time. I was at the cash register getting ready to pay, so I opened my bag and my wallet wasn’t there. I was so embarrassed!

You might have left it at home.
You must have forgotten to put it in your bag.

My son drove me home and I looked for my wallet all over the place, but I couldn’t find it anywhere. And there was quite a lot of money in it. I was devastated!

And then my daughter, who was also looking, stopped and said. “Are you sure you didn’t leave it at grandma’s yesterday? I remember you taking it out and leaving it on the little table next to the door”.

I don’t know why I keep on doing things like that. I don’t normally forget where I put things.
1. Study the picture and write words under each heading in the chart. Write sentences about what happened before the picture was taken and what probably happened afterwards.

READING

Does the brain ever sleep? Read the article and find out.

1. ____________________________

Is dreaming a type of entertainment that the brain creates for itself? Is it a way of processing images and feelings that one has experienced? Is it a mix of experiences and associations? One might suggest that a dream is a series of images, sounds, and feelings that are experienced when one sleeps.

2. ____________________________

Some researchers suggest that dreaming is a sign of your brain trying to sort out random emotions and memories, very much like processing information and classifying it. Part of the process could be compared to what defragmentation of our hard disk does in our PC. In other words, it's as if the brain classifies and tidies information, as it gets rid of junk and empty space. For example, panicking because you cannot swim in a rough sea might simply be due to the fact that the brain is stimulating the fear center as it calls up the memory of a dark sea with huge waves, which is not necessarily connected to the actual experience of trying to fight the waves. When we enter REM (Rapid Eye Movement) sleep, our body sends signals to different parts of the brain that are associated with memory and emotions. Although no one can tell with certainty what the purpose or origin of dreaming is, scientists suggest that it is the result of random, neuronal firing. Neurons are formed as we develop, and acquire knowledge and experience.

3. ____________________________

Most people, approximately 90%, report that they dream in color. A small number, approximately 8%, insist that they never dream in color. Then again, quite a few people say that they sometimes dream in color and sometimes not. The fact of the matter, however, is that we all dream even if we cannot remember our dreams when we wake up.

4. ____________________________

Scientists often monitor the brain's activity during sleep or monitor eye activity during the REM stage in an attempt to find out more about sleep and dreaming. But many questions remain unanswered. What is certain is that sleep is beneficial to our health and a necessity for rest and/or a healing process, even if our brain remains active at all times.

Use the questions as headings for different paragraphs/sections of the article. Then highlight the words or phrases that provide the answers and write them.

What does sleep research involve? What is dreaming? Do we dream in color? What causes dreaming?

Smile, Paris!

In 2009, the residents of Paris took a bold but simple action—they decided to smile! There is a good reason for this. The Paris Tourist Board said that they were trying to get more travelers to visit Paris—the City of Light. They hoped that more smiles would help.

It’s no secret that Paris has had a reputation among tourists as an unfriendly city. But for years, tourists still came. Paris was a must-see world city. Now that travel is more expensive, some travelers are thinking twice about visiting Paris. And the numbers show this. Seventeen percent fewer travelers visited Paris over the past year. The results of a recent online survey also shocked Paris tourist associations. It showed that participants thought that Paris was not just an unfriendly city, but that Paris was the most over-rated city in Europe, too. Many said that it was the high prices and unpleasant residents that made Paris the most over-rated.

It was clear that Paris was suffering from a bad reputation, and that this bad reputation was hurting the economy. The founder of a tourism association in Paris said that tourism had traditionally generated more than two million jobs and been a major economic sector. He said that at this point all citizens needed to help change Paris’s reputation.

And then it happened—the brilliant idea to have residents smile more. It’s clear now that the idea is working. Tourists are seeing more smiles. For example, the tourist board has hired smile ambassadors and set up stands where these smiling people welcome tourists. The good will generated by the smile campaign is still growing. Recently, 100 roller-skaters formed a giant smile in the center of Paris in Place Vendome. The head of the tourist board said that there was nothing more inviting than a smile. And it seems to be true. Tourists not only want to visit the City of Lights, they want to visit the City of Smiles, too.

Write T for True or F for False.

1. _____ Paris is also known as the City of Lights.
2. _____ High travel costs had no effect on the number of visitors to Paris.
3. _____ Paris had the reputation of the most over-rated city in Europe.
4. _____ Tourism isn’t very important to the Paris economy.
5. _____ No one truly liked the idea of the smile campaign.

Read the news story about pandas. Then use the prompts to ask the reporter’s questions. Write the answers to the questions.

Pandas

The lovable, cuddly-looking panda is one of the world’s most popular animals. Unfortunately, it’s also one of the most vulnerable species. Pandas live only in the dense bamboo areas of the misty, rainy forests of southwestern China. Today only about 1,900 pandas remain in the wild. The Chinese government and various conservation organizations are working to protect pandas in their natural habitat. They want to maintain a “bamboo corridor” through which pandas can move freely. Bamboo shoots and leaves account for 99 percent of a panda’s diet. An adult giant panda eats up to 95 pounds (45 kilograms) of bamboo per day over a period of about 16 hours. So it is important to have a protected place with a lot of bamboo available.
