Listen carefully

**Health and diseases**

I am Sam. I am a doctor. I live in Abha. I work in a hospital. I have been a doctor since 1975. There are many diseases. Some diseases are very deadly, and some are not so serious. Most people catch a cold sometimes. A cold makes you cough and sneeze. Colds can be passed on from person to person. Some people get the flu. With the flu, you get a fever. A fever is a high temperature. If you have the flu, you will feel very bad. You have to stay home in bed. The flu can kill its victims. There are diseases that children get. Smallpox and measles leave you with red itchy dots on your skin. Older people sometimes get back and neck pain. There are people who get heart disease. In many cases, a healthy lifestyle can prevent heart disease. Cancer can attack different parts of the body. Many smokers get lung cancer. Some diseases are treated with pills or medicine. Other diseases need to be treated in the hospital. Sometimes doctors need to give you tests to find out what kind of disease you have. The doctor might have to do a blood test or an x-ray to find out what is wrong with you. Most diseases can be cured by a doctor.
